

SHORT THROW FRAME SCREEN (SFS SERIES)

A SCREEN SPECIALLY PRODUCED FOR THE BEST PICTURE REPRODUCTION IN BRIGHT ENVIRONMENTS. THE FRAME IS COVERED IN VELVET THAT PREVENTS ANY POSSIBLE DISRUPTIVE REFLECTIONS. THE SCREEN FABRICS REPRODUCE COLOUR AND LIGHT IN A VERY NATURAL WAY, YOU CAN USE THE SCREEN IN DAYLIGHT AND THE PICTURE WILL BE BRIGHT AND CLEAR ANYWAY! WE HIGHLY RECOMMEND THIS SCREEN TO THE MOVIE ENTHUSIASTS.

FRAME / COLOUR

The frame is made of aluminium and covered in black velvet. The velvet prevents disruptive reflections from the frame.

BLACK BORDERS

The picture area is surrounded by the 8 cm wide aluminium cassette (covered in velvet).

SCREEN FABRIC / GAIN

The screen fabric is gray and made in seven different layers, the light are let in in a special angel. Thanks to this layer the ambient light in the room can be shut out and this will not affect the darkness of the picture! The gain value is 0,8.

TECHNICAL SPECIFICATION: SHORT THROW FRAME SCREEN
